

Coworkers | Senior Professionals

Accompanying. Partnering. Journeying together.

Coworkers is the common name of the NGOs Hilfe für Brüder International e.V. and Christliche Fachkräfte International e.V., based in Stuttgart, Germany. Since the beginning of our work in 1980 we have been serving God's kingdom side by side with our brothers and sisters worldwide, so that God's love is passed on, many people find new hope in Jesus and receive support in their needs. This happens through the financial support of projects and by sending professionals, volunteers and interns. Our common desire as Coworkers is that the verse from 1 Peter 4:10 will guide us in all of our activities: **"Serve one another, each one with the gift which he has received."**

How this works in practice, depends on the local needs. **Coworkers** desire is not to launch projects of its own, but to encourage and empower national Christians to make the most of existing skills and resources in impacting their communities, regions and nations.

Coworkers senior professionals coordinates short-term assignments of 3 weeks up to 3 months of retirees in cooperation with Coworkers professionals, partner organisations and churches. The senior professionals are committed Christians, serving other people with their talents and expertise and living out God's calling on their lives. They have thorough professional training and work experience. Coworkers prayer is that each placement would be a witness to Jesus and a mutual encouragement in strengthening the body of Christ worldwide. They work and support in fields of skilled trades, agriculture, administration, education, and much more.
